YCCSC 2024 Agency Management Accomplishments (090) Submitted into Egov

#1 Describe a notable management accomplishment achieved by the agency during the reporting year (2024). Describe how responsible, informed leadership and effective, efficient processes led to high-quality, accessible, and well-managed services and strategies.

Yuba County Community Services Commission sub-grantee, Yuba-Sutter Legal Center for Seniors reported the following management changes:

In 2024 the Legal Center implemented a new database, client and case management system. They selected Practice Panther because of the flexibility it offers in creating profiles for its clients and easy access to data they need for completing reports for funders.

The new system has allowed staff to learn new skills and improve the organization and management of files and client data. An office assistant quickly became proficient with the new system and now manages the files and calendar of the paralegal. The paralegal reported she saves 7 to 8 hours a week and is able to do more than she did before because she can focus her time on working with clients and much less time on managing the files. The office assistant is now learning new basics to take some of the basic work (supervised) from the paralegal so she can focus on more complex matters, thereby increasing the Legal Center's productivity.

The system also makes it easier for new team members to join the Legal Center. This winter saw a member of the team go on maternity leave and they were able to cover her role with a volunteer. The volunteer, who had worked with client management systems before, was eager to jump in and effectively cover this role. This would not have gone so smoothly had they been using the old paper-based system.

#2 Provide an example of ways in which the agency addressed a cause or condition of poverty in the community using an <u>innovative or creative approach</u>. List the following headers with your response:

- Program name
- Description of program (capacity, duration, targeted population, etc)
- How innovative/creative? Please be specific.
- Local partners involved. Name each partner and what they provided
- Outcomes achieved (include the number of people enrolled and areas affected), and
- How CSBG funds were used to support implementation

Agency/Program Name: Yuba County Community Services Commission sub-grantee, New Day Training Center, Group Therapy Program

CSBG service category: Health and Social/Behavioral Development

Description of program: Provide low-income couples, sexual trauma survivors and families who need mild to moderate level therapeutic care with mental and behavioral health group therapy.

How innovative/creative: Negative home environments and negative parenting styles can be both a cause and condition of poverty, as the stress experienced in these homes hinders children's ability to succeed academically. On the other hand, teaching parent's new skills for communication, discipline and conflict management can help the whole family by making the home environment more peaceful. These skills also translate into work life and other social arenas and can thus help parents and caregivers succeed at work and financially. To teach these skills to parents, New Day elected to offer group therapy parenting classes through with the use of CSBG funds. Group therapy gives participants the added benefits of being able to bond, support and learn from one another.

Outcomes achieved: New Day had approximately 30 people interested in its first two groups, with 17 or 18 following through to attend all the meetings. Since then, New Day has continued to recruit new low-income clients and currently has a waiting list for the groups it plans to offer in 2025. Responses from group participants were very positive, with many of them reporting the therapy was already yielding benefits for their families and their other relationships and responsibilities

How CSBG funds were used: CSBG funds were used to support staff/counselor salaries and for supplies to launch and run this new program.

Local partners involved and how contributed: New Day used local partners such as Plumas Lake Elementary School District, Yuba County Health and Human Services, Adventist Health, Victim Witness, Sutter Yuba Behavioral Health, law enforcement and other agencies which serve the low-income community to recruit program participants and connect new low-income client's to New Day's new services.

#3 Provide an example of changes made by the agency in 2024 to improve service delivery and enhance impact for individuals, families, and communities with low incomes based on their in-depth analysis of performance data. Include if your agency added any new services/programs and if so, what and when. List the following headers with your response:

- Problem
- What analyze to discover problem (client survey results, conversations with clients, staff input)
- Change made

Yuba County Community Services Commission sub-grantee, Sutter Yuba Homeless Consortium—Casa de Esperanza reported the following:

Problem: Casa de Esperanza noticed a significant need for counseling services amongst the clients they serve in the domestic violence shelter but equally as important for clients that were seeking assistance but were not ready to leave their home environment to be in the shelter.

Insight/change based on performance data: Interface with clients experiencing domestic and sexual abuse and client surveys indicated the need for assistance outside the live-in shelter.

Changes made: Casa de Esperanza established a new support center, separate from the domestic violence shelter, called Hope Haven Counseling and Support Center. Hope Haven is dedicated to providing comprehensive services for individuals affected by domestic and sexual violence. The Hope Haven Counseling and Support Center works in conjunction with the existing shelter to ensure that all services provided to shelter residents are also accessible to unsheltered individuals in need of assistance. The new center provides an array of comprehensive supportive services, including counseling, assistance with obtaining protection orders, advocacy, accompaniment, support groups, case management, housing transition navigation, and sustainability services.
